

Position: Irrigation Technician – Cookhouse, Eastern Cape

The Irrigation Technician will be responsible for managing installation of projects, as well as providing back-up service and maintenance to existing projects. He will be required to work with the Team in all aspects of irrigation within the region to support the overall objectives of the company.

Requirements:

- Minimum Grade 12 level qualification
- At least 2 years experience in agricultural irrigation related activities
- Farming background will be preferable
- Candidates with electrical and/or electronic skills will be given preference
- Proven computer skills will be an advantage
- Must be a team player, with a willingness to learn and possess good organisational skills
- Candidates must have good communication skills, and present a tidy, friendly and courteous disposition towards customers, suppliers and colleagues
- Candidate must be based in the Cookhouse / Somerset East area

Responsibilities:

- Manage and oversee turnkey irrigation installation projects
- Service and maintain existing irrigation projects
- Service and repair irrigation pumps
- Service and repair centre pivot irrigation systems
- Install borehole pumps, centrifugal pumps and filtration stations
- Provide technical support and service to customers
- Adhere to the Company administrative protocols with regards to quoting, ordering, supplying, billing etc.

The Company will offer a competitive salary structure, including a company vehicle.

Candidates who meet the requirements may forward a covering letter and CV to admin@irrico.net by no later than 31 August 2017.

(If you have not been contacted by 15 September 2017, you may deem your application as having been unsuccessful)
